Collected: 27/10/2022 09:54
Received: 27/10/2022 12:00
Ordered Tests: **Covid-19 (RT-PCR)**
Specimen: Nasal Swab

Guarantor: Prosper Jambo
Tel No: +27656428272

Status: Final

PCR

TEST	RESULT	FLAG	REFERENCE	UNIT
------	--------	------	-----------	------

SARS-CoV-2 (COVID-19) PCR

Negative

GENERAL COMMENTS:

1. Due to the nature of the test, sample collection, storage and transportation will have an impact on the result.
2. The test is a molecular-based assay (PCR). False positives and negatives may occur for various reasons.

Interpretation of a NEGATIVE result:

A NEGATIVE result means that SARS-CoV-2 (COVID-19) was not detected. Negative results do not necessarily exclude infection with SARS-CoV-2 (COVID-19) and should not be the sole basis of a patient management decision. Retesting is advised if clinically indicated.

Interpretation of a POSITIVE result:

A POSITIVE result indicates the presence of SARS- CoV-2 (COVID-19). Patients are advised to contact their doctor immediately for clinical guidance and management. Self isolation is necessary for at least 10 days unless hospitalization is required.

Completed: 27/10/2022 16:23
